WWW.EDPWATER.COM

Dear New Customer:

**Welcome to the Mayde Creek Municipal Utility District.** The following information is being provided to help you become familiar with the policies and procedures relating to your water and sewer service.

To establish service with the District a refundable security deposit must be paid as well as all associated fees. The fees associated with establishing are; (1) a non-refundable \$40.00 application fee, and (2) a \$10.00 Customer Service Agreement administration fee. The refundable security deposit requirements are; (1) \$100.00 for owner that live at the residence, and (2) \$200.00 for tenants or owners that do not live at the residence. The deposit will be refunded when following the due date of the final bill. Proof of ownership is required for owners to establish service.

Water Service is provided at the following rates\*, subject to change.

0 – 5,000 gallons	\$20.00
5,001 – 10,000 gallons	\$1.50 per thousand gallons
10,001 – 15,000 gallons	\$2.00 per thousand gallons
15,001 – 20,000 gallons	\$2.50 per thousand gallons
Over 20,000 gallons	\$3.00 per thousand gallons

Sewer service is additional and billed at a flat rate of \$26.94 per month\*, subject to change.  
West Harris County Regional Water Authority \$3.14 per thousand gallons\*, subject to change.

\*Plus regulatory assessment fee of 1/2 of 1%

Your due date is the 22<sup>nd</sup> of each month. A 10% penalty will be assessed if payment is received after the due date. This amount is shown in the "After Due Date" block on your bill.

If your account is 30 days past due at the time current bills are generated, a Delinquent notice will be sent to your address. There is a \$10.00 fee for sending this letter and a \$10.00 fee for tagging the door. At this point all charges (including current charges) are due to avoid disconnection of your service. Should full payment not be received as directed on the letter, your service will be disconnected. Should service be disconnected, a \$50.00 fee will be added to your account. In order to reestablish service an additional deposit of \$75.00 is required. Full payment will be required to restore service, payable by money order or cashier's check only. A \$30.00 charge will be assessed on all checks returned by the bank.

Your District supports the fire department in your area. A \$3.00 voluntary donation appears on your bill. Your support is appreciated, however if you do not wish to pay, please deduct this amount from the "Total Amount Due" shown on your bill.

**Garbage service is provided by your water district. Trash hauling services are provided by W.C.A. customer service line: 281-368-8397. Trash Collection Schedule**

Your collection days differ based on what subdivision you live in. Please have trash out at the curb by 7:00 a.m. on your applicable collection days, as stated below:

<u>Subdivision</u>	<u>Collection Days</u>	<u>Recycle Days</u>
Silvermill	Tuesday & Friday	Tuesday
Westfield	Monday & Thursday	Thursday

The District's operator is EDP (Environmental Development Partners). You can contact them at **832-467-1599**. Emergencies are responded to 24 hours a day. Billing questions and non-emergency calls are taken Monday through Friday 8AM to 5PM. Please do not hesitate to call with any questions, concerns, or service problems. We are here to help.

Payments should be mailed to: Mayde Creek M.U.D.  
P.O. Box 690928  
Houston, Texas 77269-0928

Payments may be dropped off at: 17495 Village Green Drive, located near Jones Rd. and HWY 290.

## SERVICE AGREEMENT

- I. **PURPOSE.** Mayde Creek MUD is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the Mayde Creek MUD will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
- II. **RESTRICTIONS.** The following unacceptable practices are prohibited by State regulations.
- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
  - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
  - C. No connection which allows water to be returned to the public drinking water supply is permitted.
  - D. No pipe or pipe fitting which contains more than .25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
  - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. **SERVICE AGREEMENT.** The following are the terms of the service agreement between the Mayde Creek MUD; and \_\_\_\_\_.(the customer)
- A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Water System.
  - B. The Customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Water System's normal business hours.
  - C. The Water System shall notify the Customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
  - D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
  - E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.
- IV. **ENFORCEMENT.** If the Customer fails to comply with the terms of the Service Agreement, the Water System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

## **Notification of Chloramine Disinfection Method**

This water system uses chloramines as the primary disinfectant. The use of this disinfectant is intended to benefit our customers by reducing the levels of disinfection byproducts (DBPs) in the system, while still providing protection from waterborne disease.

However, chloramines can cause problems to persons dependent on dialysis machines. A condition known as hemolytic anemia can occur if the disinfectant is not completely removed from the water that is used for the dialysate. Consequently, the pretreatment scheme used for the dialysis units must include some means, such as a charcoal filter, for removing the chloramine prior to this date. Medical facilities should also determine if additional precautions are required for other medical equipment.

In addition, chloraminated water may be toxic to fish. If you have a fish tank, please make sure that the chemicals or filters that you are using are designed for use in water that has been treated with chloramines. You may also need to change the type of filter that you use for the fish tank.

If you have questions regarding this matter, you may contact Environmental Development Partners at 832-467-1599.
